# Assignment 3 Use Case Documentation
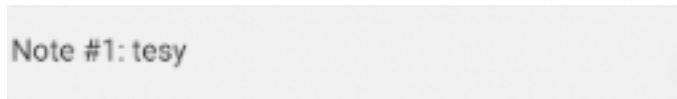

General Use: User enters texts to store his desired note.

Steps of using the app:
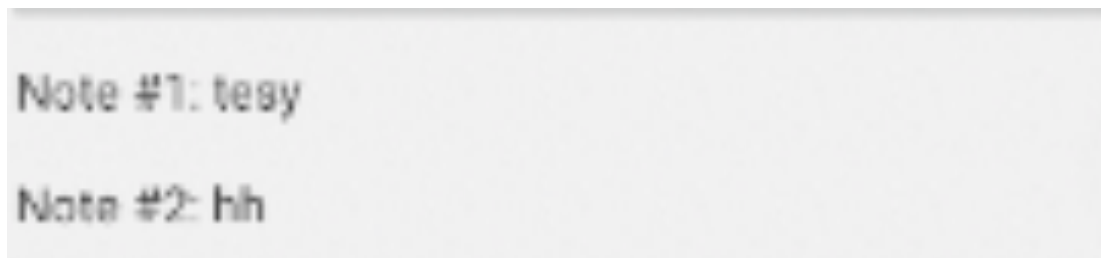

1. Enter desired note and then hit SAVE

2. Note is shown on the bottom of the screen.

3. User exits app until next class or whenever he/she prefers to come back and use the app again

4. Enter notes again and it will show previous notes along with the recently entered note.

Entire App Screen:
